Warranty Card

Limited warranty This warranty covers defects in materials and workmanship under normal use and in accordance with product instructions for a period of one (1) year from the date of original retail purchase.

It is understood that the warranty period is subject to applicable local laws.

Exclusions This warranty does not cover damage resulting from abuse, accident, alteration, misuse, improper installation, lack of reasonable care, unauthorized repair or any issues not arising from defects in material or workmanship.

Claim Procedure To obtain your warranty, contact your authorized dealer and present this warranty card along with the original purchase invoice, otherwise the warranty service will not be provided.

Limitation The manufacturer's sole obligation under this warranty is to repair, replace or provide a refund for the product at their discretion.

Legal Rights This warranty provides specific legal rights; a warranty cannot be provided without either of these documents.

Before You Start

This manual is for OMNI MAX+, a portable universal scanner to identify animals. This low-frequency RFID scanner offers the best reading distance in its category.

Supported microchip technologies

FDX-B (ISO), FDX-A/FECAVA, Avid Enc., Trovan and HDX

IMPORTANT: Refer to the photo on the right for correct hand placement when scanning.
This will help ensure the best reading results.
Please avoid pointing the scanner directly at the animal.

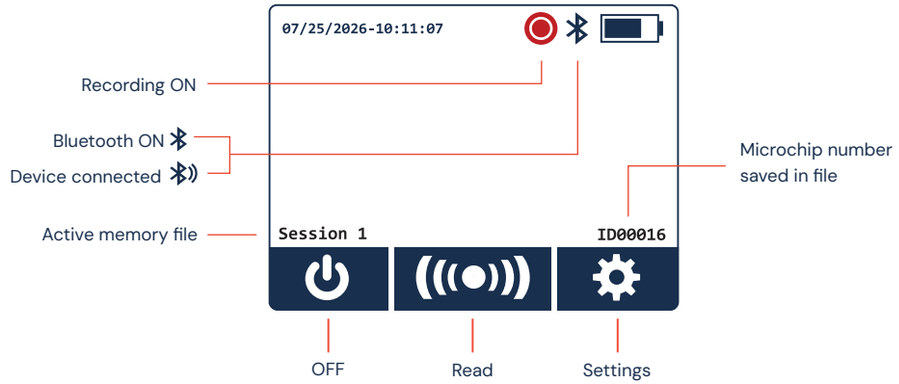

Icon Legend	
ON OFF	Bluetooth® ON/OFF
	Info: Product name, firmware, serial number and bootloader versions
	Memory management (Session files)
OFF	Enable or disable downloading memory files to a PC via USB
	Set date and time
	Turn microchip read sound ON/OFF
APP	Bluetooth connection via Keyboard wedge or Mobile APP
[●REC] [○REC]	Memory file enabled (recording) Memory file Disabled (no recording)

Basic Information

Step 1

Turn ON your scanner by pressing the central blue button.

Step 2

Start scanning using the central blue button. The reading time will be set to 1 minute by default.

Step 3

Activate the scanner functions by selecting the Settings button to explore the available features. Refer to the icon legend to review all functionalities.
Quick Tip: Verify date and time before memorizing data to ensure proper memory management.

Step 4

Download the “Datamars Pet Scanner Support” app to your smartphone. The app is available on the App Store and Google Play.

Step 5

Open the app and follow the set-up and pairing instructions.
What you can do with the app:

- Update the scanner with the latest software version.
- Look up microchip numbers in integrated databases.
- Manage scanner memory and share saved microchip numbers.
- Change basic and advanced scanner settings.
